Step-Instalment of platforms

Choir- and Orchestra-Stages for choirs and orchestras of each size

Plug-in-Foot- or Scissors-type platforms for Choir- or Orchestra-Events are installed in straight or half-circle step-formations. The Building-Kit-System makes adaptability for all types of events and locations possible.

Building-Kit-System for all types of events and locations.

Product-Description

Platforms (Plug-in-Foot- or Scissors-type) for choirs or orchestras are installed in stepped formations (also in half-circle configuration)

The building-kit-system allows variety concerning number of choir-/orchestra-members and the location of an event.

Assembly

The platforms are equipped with a surrounding nut where each element will be connected to the next by a simple connection-piece.

Accessories like stairs, handrails etc. will also be fixed in this surrounding nut. For the stepped instalment the platforms one behind the other will be connected by special foot-clamps or frame-/foot-clamps.

Accessories

Analogue the choice of the platform-model.

Extension Variant

Special for choirs-/orchestras: conductor-podium with special handrail ... in different sizes available.
